Lucy D. Rosenfeld, Marina Harrison : A Guide to Green New Jersey: Nature Walks in the Garden State before purchasing it in order to gage whether or not it would be worth my time, and all praised A Guide to Green New Jersey: Nature Walks in the Garden State:

3 of 3 people found the following review helpful. more then just nature walks, a true treasure troveBy jerseybooksellerI bought this book mostly because I am buying a lot of books about NJ and because I enjoy hiking. I truly didn't expect to learn anything I didn't already new but I was genuinely surprised. The book managed to avoid being simply a description of every state and county park by throwing in a wide array of things to do that involve long

walks, including butterfly zoos, vineyards, battlefields, arboretums and flower gardens as well as cemeteries. This variety truly keeps it interesting. If you enjoy being outdoors, this book will surely show you something you didn't know existed, and make you yearn for a day off from work and a warm sunny day. 0 of 0 people found the following review helpful. Must Have Book To Hike New Jersey By Richard Moschella Great Book about where to hike in New Jersey gives local history on the places in the book. From north Jersey to south Jersey this is a great book to buy! 0 of 1 people found the following review helpful. Thank you for the prompt service. By Megan Bethmann This product was sent in a timely manner and in described condition- would do service with again!

New Jersey is a state of surprises. Did you know there was a castle in Passaic County? Or that Essex County's Branch Brook Park, rather than Washington, D.C., has the largest concentration of flowering cherry trees outside of Japan? Did you know you could walk through a bamboo forest on the Rutgers University campus, dig for fossils in Middletown's Poricy Brook, visit an owl haven on the site of the Battle of Monmouth, or see wild river otters in Salem County? Despite its proximity to major urban areas and its high population density, the state has dozens of absolutely marvelous natural areas and preserved spaces. It boasts something for everyone, from Atlantic seashore to rugged mountains, rolling farmland to winding canals, historic trails to formal gardens, bird-filled marshes to hardwood forests, pine barrens to fragrant vineyards and orchards. There are outings for hikers, bikers, beachcombers, gardeners, power-walkers, and strollers of all kinds, and *A Guide to Green New Jersey* is your key to finding it all. The book is conveniently organized into forty geographic areas, spotlighting more than 200 nature walks. Each entry includes a description, visitor hours, fees, driving accessibility, and other pertinent information for walkers. At the end of the book, the authors provide an index with the names of each site, and their guide to choosing an outing according to individual tastes and interests. They identify sites that are wheelchair accessible, especially fun for kids, best for bicyclists, and those that are particularly physically challenging. Newcomers to the state will find the book indispensable, and long-time New Jerseyans will find it a pleasantly eye-opening guide to wonderful walks right in their own backyards.

Chock-full of information and directions to what's available from the well known to the obscure. -- *Courier-News*, March 26, 2003 Directions are clear and concise . . . descriptions make you want to don your hiking boots and take off on your walk. -- *Asbury Park Press*, 3/30/03 About the Author Lucy D. Rosenfeld and Marina Harrison have published six guidebooks together, most recently *Southern Gardenwalks* and *Gardenwalks: Exploring 101 Beautiful Gardens in the Northeast*. They have also published off-beat guides to nature walks and public art in unusual settings.
