9 of 10 people found the following review helpful. Big disappointmentBy A CustomerThis book was s big disappointment. (I returned my copy.) It has just one or two paragraphs each about hundreds of attractions. Broad and shallow. No information that is particularly useful to parents.If you're a AAA member, you'd be better off with their tour book, which is free to boot!

Washington, D.C., is home to the largest collection of free museums in the world as well as one of the country's finest zoos, making it a great destination for families. This guide to the United State's capitol provides in-depth information on the monuments of the National Mall and the museums of the Smithsonian, including the National Air and Space Museum-allowing families to plan a visit that best suits their interests and time schedule. Included are easy routes to help families find their way through the National Cemetery at Arlington, the metropolitan area's historic neighborhoods, and the recently restored U Street theater district. Entertaining and educational day trips within easy driving range from Washington, such as Gettysburg and other Civil War sites, Annapolis, and exciting amusement parks, encourage parents to personalize their family trip and create a tailor-made vacation that everyone will enjoy. Maps of the metro system and a listing of kid-friendly restaurants and special events make navigating the city a snap for parents with kids in tow.
