San Francisco Photo TourBy LizWhile the photos and information were great, I was extremely disappointed with the condition of the book when it arrived. I bought this book to take abroad as a gift and the jacket for the book was not very new looking. When I removed the jacket, it made the book look cheap so I ended up leaving the cover on. I was a little embarrassed but did not have time to make an alternative plan. Also, the price was on both the jacket and the book so you have to deal with that issue if the book is a gift.

A beautiful souvenir book with over 60 large-format, full-color photos.
