Ndeye Doesn't Tell You About Africa, She Takes You With Her On The Journey!By LoverThis was quite possibly the MOST unique non-fiction book I've ever read! I expected to see and learn about some African sites, but this book offered much, much more! I didn't expect to be completely 'drawn into' the author's journey like I was! Not only did the author describe the setting of each place she journeyed, but she described her own personal experience so effectively, I almost felt like I was traveling with her! And I definitely felt like I WANTED to travel with her! This is because you feel like you actually KNOW her after reading the first few pages of her book. Ndeye (the author) is a kind, savvy, educated, world traveler, model, pilot - and I'm not sure what else. Haha! I find that I MUST read her earlier books so I can learn more about this intriguing individual! I gave this

book 5 stars because Ndeye went well beyond telling me about her travels in Africa. She brought me along with her. What a delightful surprise! 7 of 7 people found the following review helpful. I felt I really got to know her through her book - I mean, beyond being and amazing, educated, spirited beauty, she's also skilled as a pilot! Wow! I was drawn into her experiences much more than I expected. I definitely have some places in mind for my future visit to Africa. I'm really glad I took the time to check this book out.
