before purchasing it in order to gage whether or not it would be worth my time, and all praised AIA Guide to St Paul's Summit Avenue and Hill District (Paperback) - Common:

A guide to one of the most picturesque neighbourhoods in the Twin Cities. It features structures such as the magnificent James J Hill House, the lovely little Virginia Street Church, and offers details about the structures and the people who built them. It includes walking tours for Summit Avenue, Summit Hill, and Ramsey Hill.
