I may even read it.By Howard CowardGreat old book filled from cover to cover with sentences and ideas specific to Alabama. What a coincidence! Looks great on my coffee table when company comes over. Strikes a balance between intellectual pursuit and curio. Projects that ambivalence so handy when fending off either older gay men or teen girls.Seller was prompt with delivery, book was exactly as described. Even arrived in a padded envelope which I now use to store my collection of Alabama-specific receipts. Such a deal.0 of 0 people found the following review helpful.
