Not heavy in details but the pictures are good enough to ID a lot of trees and plants. 0 of 0 people found the following review helpful. Very Handy By Pocahontas I think this is done very well for what it is. The information is limited because of its size but informative on what it has room to cover. 0 of 0 people found the following review helpful. Five Stars By Customer Helpful guide

With over 4,500 documented species of plants and animals, Alabama is ranked fifth in the union for overall plant species diversity. This beautifully illustrated guide highlights over 140 familiar and unique species of trees, shrubs and wildflowers and also includes a map featuring prominent botanical sanctuaries. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Made in the USA.
