Double sided visitor's map of Alaska designed particularly for cruise ship travellers. Covers the area from Seattle, parts of Canada and all of Alaska up to Aleutian Islands. It is packed with information such as illustrated biographies of early explorers and other visitors, introductory information on native peoples, color photos and text on Alaska's wildlife, as well as a historical time line. Main map scale is 1:3,800,000. Includes the Aleutian Islands, and adjacent areas of Canada (1:3,800,000), map of the Inside Passage (1:3,800,000).
