By FSR  
Anne Vipoli's book is long overdue - a guide for the more adventuresome cruiser who wants more than the cruise line hype pushing their tours. This comes close but I would love to see more detail, a la Rick Steves, on very specific itineraries for the adventuresome cruise passenger. The general background on each port is nice but it just fills pages and is readily available from other sources. One other matter, specific to Alaska and a few other places. In some ports, like Skagway and Ketchikan, where one or two cruise ships' complements can outnumber and overwhelm the local population, the cruise line run tours often book up some venues, so the passenger has no choice but to book through the cruise line and is well-advised to do so in advance. Noting those venues and tours would be equally helpful.

This is exactly what I was looking for. Great information on the ports the cruise ship will be calling on, plus the areas we are touring after the cruise on the land tour part of our trip. The Author is informative and knows her subject matter through person experience. Our trip will take us through Vancouver Ca and as a resident she is knowledgeable in Canada too. I love the pictures as I am trip planning. The pull out map will be placed in my cabin along with magnets to mark our voyage. This is a great Alaska trip planning book.

I purchased this book in anticipation of my Alaskan cruise in June. It is filled with all sorts of information about each of the towns that I will be stopping at. It has helped me choose excursions that suit my interests and also gave me ideas of activities I can do on my own. This is a very informative book.

The complete guide to taking a cruise or cruise tour to Alaska. Our book covers all aspects of this exciting cruise with 2 giant color pull-out maps showing all cruise routes of both the Inside Passage and Glacier cruises. Learn about the wildlife (includes whale watching map and tips on sighting different kinds of whales) as well as native culture, natural phenomena and all attractions on an Alaskan cruise. Our book also comes with detailed walking-tour maps of each port and hiking locations for the those who like to get about on foot. Over 400 color photos and dozens of maps make Alaska By Cruise Ship your best porthole companion.

With her crisp writing and in-depth reporting, Anne Vipond's has created a terrific series of guide books. --Cruise Critic  
Anne Vipond goes beyond the standard cruise-guide fodder of ship and port descriptions. This is a comprehensive book for the cruise traveler. --Chicago Tribune
