**Ron Dalby : Alaska Highway, 2nd Ed.** before purchasing it in order to gage whether or not it would be worth my time, and all praised Alaska Highway, 2nd Ed.:

1 of 1 people found the following review helpful. Great for RVers By Richard Kongable I enjoyed the book but planning a motorcycle trip soon, and the book was disappointing in that respect. Mostly written to RV owners. Nice style and gives you an idea of the friendly folks you'll meet along the way, but after reading the Milepost and a couple of other books this one didn't have much to add. Parts about where to buy the cheapest gas probably aren't relevant

after a couple of years, etc. 2 of 2 people found the following review helpful. A book that can pave the way too a change in your life.....By A Customer "The Alaskan Highway: An Insiders Guide" Is the most complete book that covers what to take , how to take it, where to stop, what to see, and over all how to survive the sometimes hazardous highway.....I know it is what I used to start my journey to Eagle River, Alaska.....I'll never forget the experience.....I recommend this book and the Journey to anyone who needs a new out look on life; because the book will pave the path to the journey that will surely change your life!!!! It did mine 3 of 3 people found the following review helpful. A must-read for anyone contemplating this trip. By A Customer Mr. Dalby has captured the spirit and reality of this "dream" trip. His advice, observations, and anecdotes are worth the purchase of this book, even if you don't plan to travel the Alaska Highway. His descriptions are great and the common sense approach is refreshing. We plan to take this trip in the summer of '99. Once we read the book, we were convinced that this trip was for us.

The greatest driving adventure in North America awaits you with this easy-to-use guide to the entire Alaska road system. Each section of The Alaska Highway covers what would be a comfortable day's drive, mileages, distances to campgrounds, services and highway hazards, while also conveying the romance, history and adventure of this once-in-a-lifetime adventure.

From Book News When they say "insider" they mean "insider." This guide covers the drive in detailed one-day sections loaded with tips that are really tips, not just recycled commonplaces. Likewise, the sections on need- to-know information really lay it on the line regarding vehicle preparedness and driving tips. Annotation copyright Book News, Inc. Portland, Or.
