1 of 2 people found the following review helpful. Great Gift By Jim Wagner We recently returned from Spain. Should have had this book before. It seems to be complete and concise. Well laid out. 3 of 3 people found the following review helpful. Scholarly, not great as a travel resource By talley If you want a treatise on the Alhambra, this is the book for you. VERY detailed and tons of information. It seems to be produced on archival paper, because even though it is a paperback, it weighs a ton! I was looking for a tourist guide to the Alhambra. If that is what you need, do not get this book. If you want a book that gives you an in-depth view of the Alhambra and you enjoy reading something that

seems a bit like a text book, then this fills the bill.

A complete guide to this unique UNESCO World Heritage Site.
