**Jerry Sieve : Along the Arizona Trail** before purchasing it in order to gage whether or not it would be worth my time, and all praised Along the Arizona Trail:

0 of 0 people found the following review helpful. Five StarsBy STEVEN CONLEYGreat photo's of AZ0 of 0 people found the following review helpful. Along The Arizona Trail.By Lucy WoodsVery pretty pictures that could inspire an out of the area reader to go to Arizona and try some of the AZ Trail. It is offered by sections, starting at the Utah Border and going south, in increments. The photos give a good idea of what desert hiking could be like. Inspiring!2 of 2 people found the following review helpful. can't get enough of ArizonaBy A CustomerThe photography in this book is unbelievable, and were it not for the requirement to note when photos are retouched in the computer, I would have believed they were "illustrations." I can never look at enough photographs of Arizona, but this unique stretch of trail which runs 750 miles from Mexico to Utah is a never ending string of contrasts, diversity and astounding beauty.Jerry Sieve, the author, must be a book designers dream. He writes in strings of 20 word "pull quotes" and has done a great job of describing the trials and tribulations of hiking the unfinished Arizona Trail with a wonderful sense of humor. With the exception of a few stinging criticisms - the filthy air of Phoenix, road warriors in popular camp grounds, outdated topographic maps, etc. - he is as enthusiastic as those of us in Arizona about this monumental project and the opportunity for long distance non-motorized trail use that it provides.You may have to purchase a new coffee table for this book!
