7 of 7 people found the following review helpful. detail/precise/factsBy GurupsThe book starts with the map of all hiking area marked and followed by a brief tabular description of the hikes (parking fee/seasons/pets/highlights), makes it easier to pick a hike based on distance and other factors. I tried few of the hikes from this book, they are explained in detail and very precise. There is also lots of facts/history about the area/hike and things to do around.0 of 0 people found the following review helpful. hike, hike, away !!By jonathan d. smithinteresting read , a good sold list of trails.1 of 1 people found the following review helpful. If you like hikes and vineyardsBy HurlburtGreat book for ideas on where to hike in CT. The map in the book is the same layout as the CT wine trail map. Great for finding hikes that you can end with nearby vineyards.
