**Corey Finger : American Birding Association Field Guide to Birds of New York (American Birding Association State Field)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised American Birding Association Field Guide to Birds of New York (American Birding Association State Field):

5 of 5 people found the following review helpful. Five StarsBy photogBeautiful photos and very good text descriptions! Font is pretty small though for my old eyes.4 of 4 people found the following review helpful. This looks like an excellent field guide - beautiful detailed photos and ...By CustomerThis looks like an excellent field guide - beautiful detailed photos and informative descriptions of the birds, their frequency and timing, and their habitats in New York State. Being state-specific, it would be helpful in finding as well as identifying birds. It's a good size/shape to carry, if you prefer print to apps or are out of range while out in the field.2 of 2 people found the following review helpful. Excellent Guide for NY Birders.By Mary P AitkenAn excellent guide to the birds of New York. Suggestions for where to see birds and distinguishing marks will be helpful to novice and more experienced birders.

A comprehensive guide to New York birdwatching from the American Birding Association The Empire State is one of the best places for birding in North Americafrom the Adirondack Mountains in the north; the Finger Lakes in the west; the Hudson Valley in the east; and the marshes, bays, and beaches of the south, New York provides habitats for an amazing array of birds. As a flyover state for many migrating species, backyard birders can see hundreds of species per year as they head north in the spring and south for the winter. The American Birding Association Field Guide to Birds of New York includes more than 300 species birders are most likely to see in the state. Illustrated with hundreds of crisp, color photographs, it includes descriptions of each bird along with tips of when and where to see them, written by an expert New York birder. It is the perfect companion for anyone interested in the amazing diversity and beauty of the birds of New York.

"Beautifully produced and lavishly illustrated...an excellent guide for beginning and moderately experienced birders . . . extremely impressed with Fingers relaxed and easy erudition . . . photos work perfectly with the text, and as an added visual bonus, the front endpapers feature a beautiful map." John Thaxton, Adirondack Explorer
