Also, advertised as used in GOOD condition, received in POOR condition with writing within pages AND torn covers.0 of 0 people found the following review helpful. NOT the map for a road

warrior or travelerBy CustomerTrying to navigate across the state with this is impossible. Rather than a standard atlas - where the end of the page helpfully says "continued on map xx", this is organized alphabetically by town - and in many cases the map doesn't even hint at where you should look as your road runs off the page. Strangely, although owned by the same parent company - American Maps uses this poorly organized way, while Hagstrom Maps are easy to follow and use.

Large scale street atlas with street level detail includes city and town statistics, individual community maps with an index on corresponding map pages, places of interest and street map coverage of all communities in Hartford, Middlesex, New London, Tolland and Windham Counties.
