HoffmanAs a person who has never been closer to hiking the wall than the Royal Station Hotel in Newcastle I found the book very helpful in planning a hike of the wall. I could report back in mid October as to how accurate the book is.1 of 1 people found the

following review helpful. A great wall
By Mike I really enjoyed this book. I believe it would serve as a great introduction to Hadrian's wall for those who are not familiar with the wall. It is also a fun read for those who might know more about the subject.

This book provides a friendly and accessible introduction to Hadrian's Wall in the form of 100 questions and their answers. Designed to appeal to all who have heard of (but do not necessarily know much about) this important monument, the themes covered include Building the Wall, Using the Wall, After the Wall, Visiting the Wall, and Understanding the Wall. It includes a select bibliography. Written by an archaeologist who has walked, driven, cycled, flown, illustrated, photographed and even excavated on Hadrian's Wall, this is the first of a new series of accessible guides to 'that famous wall'.

About the Author M. C. Bishop is a freelance writer, publisher, and archaeologist who - amongst other things - walks, drives, cycles, flies, tweets, blogs, draws, and photographs Hadrian's Wall. His particular specialities are Roman arms and armour and the Roman site at Corbridge in Northumberland, but he confesses to being at his happiest when working on articles or books (writing, illustrating, editing, copy-editing, typesetting, proofreading, and indexing!).
