National Geographic Maps - Trails Illustrated : Appalachian Trail, Mount Carlo to Pleasant Pond [Maine] (National Geographic Trails Illustrated Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised Appalachian Trail, Mount Carlo to Pleasant Pond [Maine] (National Geographic Trails Illustrated Map):

1 of 1 people found the following review helpful. Great Map..Contains 10 of the 14 Four Thousand Footers in MaineBy Phil BaroneI like the book style map that the Appalachian Trail Maps utilize. If you are trying to summit all of the 4000' mountains in New England or the entire Northeast this map is a must have. It contains trails for Sugarloaf, Crocker Mountain, Bigelow-West Peak, Saddleback Mountain, Bigelow-Avery Peak, Mount Abraham, South Crocker Mountain, Saddleback-The Horn, Mount Redington and Spaulding Mountain.0 of 0 people found the following review helpful. Excellent Hiking MapBy DavidThis is an excellent map!! It's such a clever idea to make it in a pamphlet format rather than traditional map fold. It's like a small book with a section of the trail on each page. There is plenty of overlap between the sections, so continuing on another page is no problem. There is also an elevation profile at the bottom of each page, and local hiking info in the front of the book. And of course the map itself is typical of all National Geographic hiking maps. I highly recommend.0 of 0 people found the following review helpful. Quality, close-up detail, and enough overlap from page ...By MWQuality, close-up detail, and enough overlap from page to page to stop excessive flipping between pages. Very tear-resistant, waterproof plasticized paper as well, akin to material many nautical charts are made of now.

Waterproof Tear-Resistant Topographic MapThe Mount Carlo to Pleasant Pond Topographic Map Guide makes a perfect traveling companion when traversing the southern Maine section of the Appalachian Trail (A.T.). The A.T. through Maine offers some of the most challenging sections of trail along the A.T., both in rugged terrain and weather conditions, and is not recommended for the unprepared hiker. Each A.T. Topographic Map Guide includes detailed topographic maps at a detail of 1 inch = 1 mile. Each page is centered on the A.T. and overlaps with the adjacent pages so there is little chance of getting lost. Along the bottom of each page is a trail profile that shows the distance between shelters, camping areas, and trail access points. The map and trail profile provide a step by step visual guide to hiking the trail, mile by rugged mile. The Topographic Map Guide is built for all levels of hiking enthusiasts, from the day tripper to the multi month 'thru-hiker'. The front pages of the printed Topographic Map Guide include resupply information, town inset maps, camping options, and much more. Every Topographic Map Guide is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation. Other features found on this map include: Andover, Bald Mtn Brook Shelter, Baldpate Mountain, Baldpate Shelter, Bemis Mountain, Bemis Mtn Shelter, Bigelow Mountain, Caratunk, Carlo Col Shelter, Crocker Mountain, Elephant Mountain, Frye Notch Shelter, Full Goose Shelter, Hall Mtn Shelter, Horns Pond Shelter, Kennebec River, Little Bigelow Shelter, Mahoosuc Arm, Mount Carlo, Old Blue Mountain, Piazza Rock Shelter, Pierce Pond Shelter, Pleasant Pond Mtn Bigelow Preserve, Pleasant Pond Shelter, Poplar Ridge Shelter, Sabbath Day Pond Shelter, Saddleback Mountain, Sebasticook Lake, Spaulding Mountain, Spaulding Mtn Shelter, Speck Pond Shelter, Sugarloaf Mountain, West Carry Pond Shelter, Wyman Mountain. Map Scale = 1:63,360 Folded Size = 4.25" x 9.25"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
