**National Geographic Maps - Trails Illustrated : Appalachian Trail, Schaghticoke Mountain to East Mountain [Connecticut, Massachusetts] (National Geographic Trails Illustrated Map)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Appalachian Trail, Schaghticoke Mountain to East Mountain [Connecticut, Massachusetts] (National Geographic Trails Illustrated Map):

3 of 3 people found the following review helpful. Best maps I've found so farBy ScottyPI've bought a lot of maps and the National Geographic (NG) maps are the best. For example, I bought the NG John Muir Trail Map as well as the Tom Harrison's JMT maps and compared them (for my trip later this year). Harrison's map is supposed to be one the best JMT maps available. At first blush, they seemed to be pretty similar, but after a minute or two, I started to see information on the NG map that wasn't on the Harrison map. The Harrison map had a little more color and seemed to jump out at you more (I want to say it had more contrast). Also, the Harrison map is closer (without resorting to a technical explanation of map scale, if the NG map was at 20,000 feet, the Harrison map was at 16,000 feet...I'm making up the feet here, it's for illustration purposes). But the NG map had more information such as:1. there are "elevation profiles" at the bottom of each page which is very useful.2. more of the side trails were labeled (named)3. way more campsites were shown4. there are notes like "Fill up on water. No water source 5 mi southbound (creek at switchback)"5. there are mileage markers to both ends of the trailI'm going to take both maps, but if I had to take one, it would be the NG map.0 of 0 people found the following review helpful. Its a pamphlet/book, not a wall map.By Cust8e0I don't like traveling from page to page, I want to see the entire picture in 1 shot. I really thought I researched this and concluded it was a single printout. Its not; I will return it.0 of 0 people found the following review helpful. Overwhelming, but awesome.By TinkerTylerThe map can be a little crowded. I was hoping for a more "to the point" map but this does have some useful information. Waterproof and easy to handle.

Waterproof Tear-Resistant Topographic MapThe Schaghticoke Mountain to East Mountain Topographic Map Guide makes a perfect traveling companion when traversing the Connecticut and Massachusetts sections of the Appalachian Trail (A.T.). The trail in this section of New England skirts the northwest corner of Connecticut and traverses what remains of a once mighty mountain range. The hiking is moderate through Connecticut and the climbs are short, but can be steep. As the trail crosses into Massachusetts, it enters the Berkshires, characteristic of wooded hills, outstanding views with pleasant, flat hiking along the Berkshire plateau. Each A.T. Topographic Map Guide includes detailed topographic maps at a detail of 1 inch = 1 mile. Each page is centered on the A.T. and overlaps with the adjacent pages so there is little chance of getting lost. Along the bottom of each page is a trail profile that shows the distance between shelters, camping areas, and trail access points. The map and trail profile provide a step by step visual guide to hiking the trail, mile by rugged mile. The Topographic Map Guide is built for all levels of hiking enthusiasts, from the day tripper to the multi month 'thru-hiker'. The front pages of the printed Topographic Map Guide include resupply information, town inset maps, camping options, and much more. Every Topographic Map Guide is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation. Other features found on this map include: Bear Mtn, Beartown State Forest, Brassie Brook Shelter, Cheshire, Clarksburg State Forest, Cornwall Bridge, Dalton, East Mtn State Forest, Falls Village, Glen Brook Shelter, Great Barrington, Housatonic State Forest, Kay Wood Shelter, Kent, Lee, Limestone Spring Seth Warner Shelter, Mark Noepel Shelter, Mount Algo Shelter, Mount Greylock State Reservation, Mt Everett, Mt Greylock, Mt Wilcox North Shelter, Mt Wilcox South Shelter, North Adams, October Mountain State Forest, October Mtn Shelter, Pine Swamp Brook Shelter, Pittsfield, Rand's View, Riga Shelter, Stewart Hollow Brook Shelter, Ten Mile River Shelter, The Hemlocks Shelter, Tom Leonard Shelter, Tyringham, Wilbur Clearing Shelter, Wiley Shelter. Map Scale = 1:63,360 Folded Size = 4.25" x 9.25"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
