David Lauterborn : Appalachian Trail Thru-Hike Planner before purchasing it in order to gage whether or not it would be worth my time, and all praised Appalachian Trail Thru-Hike Planner:

Each year, more than 2,500 men, women and, occasionally, children set out to hike the more than 2,189 miles of the Appalachian Trail from Georgia to Maine (or vice versa). Good preparation is the key to whether they become part of the 25-28 percent who make it all the way. For this adventure of a lifetime, the [i]Thru-Hike Planner[/i] will help you chart a course, work out a budget, choose gear, plan meals, get in shape and otherwise inspire. It comes with homework: charts and worksheets and checklists and forms, all designed to be ripped out and spread over the kitchen table and then stuck in your pack. This 2015 edition brings together the up-to-date advice of recent hikers with the

mileages and trends seen by the trail's managers. It advances the mileages and shelters to 2015 status and includes new tips, including advice on smartphones, GPS, Web sites, and other devices and books. The QR code on the back takes you right to the latest Trail conditions on the Appalachian Trail Conservancy Web site.
