Matthew Grobert : Fly Fishing New Jersey Trout Streams before purchasing it in order to gage whether or not it would be worth my time, and all praised Fly Fishing New Jersey Trout Streams:

0 of 0 people found the following review helpful. Five StarsBy patrick dalyExcellent book period!1 of 2 people found the following review helpful. Bobby's BrooksBy Bobby C. KilbyGreat book about New Jersey Trout Streams. Book gives abundant information to the first time visitor. It is valuable to all trout fishermen.1 of 2 people found the following review helpful. Five StarsBy SuperExcellent book.

This book is the culmination of 35 years of experience, information, insights, observations, and the wonders of fly-fishing for trout in the Garden State. Written with the passion of a life-long fly-fisherman, you will gain valuable knowledge on becoming a better angler and naturalist no matter where you fish for trout. Coupled with the lyrical narrative are dozens of photographs taken by a variety of New Jersey anglers who share the author's love of fly-fishing for trout. Matt covers every aspect of fly-fishing for trout in New Jersey with a style and clarity to suit every level of ability. You will learn about three species of trout and their behavior, the insects they eat, and the artificial flies that imitate those insects.
