Eric H. Newman : Flyfisher's Guide to New York (Flyfisher's Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Flyfisher's Guide to New York (Flyfisher's Guides):

Great guide to all of the good fishing spotsBy William HallahanVery good coverage of the popular streams as well as the hidden and very beautiful fishing spots. This is my second copy (new version) so I'm happy with the book. The maps are very helpful as well as maps that you can download from the NYSDEC website. Take them both into the field with you.0 of 0 people found the following review helpful. Buy oneBy ButchGet it. Crazy not to know your fishing ground.1 of 1 people found the following review helpful. Well

Organized and Comprehensive By Peter O'Neill I'm an avid fly fisherman and I drive through all corners of NY State. This book has already turned me on to new waters on my travels, not surprisingly, but also a beautiful stream closer to my house than my usual "local" creek. Easy to use too.

From the fabled Beaverkill, Willowemoc, and Delaware Rivers in the Catskills and the great flyfishing waters of the Adirondacks to the outstanding flyfishing in the Great Lakes, Eric Newman covers all of the many fishing opportunities in the Flyfisher's Guide to New York. Eric covers the fly-fishing opportunities for rainbow, brook trout, brown and lake trout, steelhead, landlocked salmon, chinook coho salmon, muskie, smallmouth bass, and other warmwater species. Eric gives a detailed description of each water with how and when to fish it along with 35 hatch charts and recommended flies. There are over 130 detailed maps, showing river miles, access points, boat ramps, roads, campgrounds and more. Eric also gives the reader travel information for each region that includes a listing for fly shops, sporting good stores, guides, outfitters, motels, car rental and repairs, restaurants, and more. Each important river, creek, and lake is covered including the Delaware, Beaverkill, Neversink, Croton, Battenkill, Au Sable, Salmon, Susquehanna, Roe-Jan, Cattaraugus, Black, Esopus, West Canada, Seneca, Massawepie, Little Tupper Lake, Pharaoh Lake, Laurel, Swan and many others. This is the best book ever written on flyfishing New York.
