this would be a great way to help them plan and add a little more excitement to the planning process. They LOVED it. They both read it within the first two days and called to tell me that they have now mapped out %90 of their trip around this book! Great tool for planning trips!!!0 of 0 people found the following review helpful. Confused at bestBy FabioAll the information is in the guide but it is confused at best. Itineraries overlap and when you are in one location you need to search several of them to get all the information you are looking for on the spot you are visiting, thing that never happens and you realize you missed out on things only later when you bump into them by coincidence ready trough another itinerary1 of 1 people found the following review helpful. Not a great guide...By True ReviewThis book had some good ideas, but without pictures it wasn't very engaging at all. Couldn't imagine sitting down and reading it for more than 10 seconds... I bet there are much better guides available...
