**Fodor's : Fodor's Great American Drives of the West, 2nd Edition (Travel Guide)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Fodor's Great American Drives of the West, 2nd Edition (Travel Guide):

6 of 6 people found the following review helpful. Great place to startBy James 0065We are looking to fly to San Francisco and take the highway north for a scenic vacation. I needed a book that would give me some good starter information to do more research. This book fit the bill and did a very good job of giving descriptions of where to go but, also included maps to give me a visual of what the trip would look like.I would recommend this series of books for getting your driving trip started. It does not go into a great amount of detail but does give you enough information about where to start and the sights along the way.0 of 0 people found the following review helpful. blue colored type is hard to readBy ImagardenerAs stated I find some of the type hard to read that is light blue-colored in a small size. I also like to make copies of pages and put them in a 3 ring binder for specific trips and leave the whole book at home. Not a good idea to Xerox blue ink.I love the book concept, great drives, since we do a lot of van travel for vacation. It's just not typeset in a way I like.So I'm not buying the book after looking it over, won't be able to use it the way I want to and damage my eyes trying to read it.I gave 3 stars but 2.5 is what I really think.

Whether it's a weekend getaway or a cross-country road trip, these driving guides ensure that the fun is in getting there.
