By Diana Leiphart
This book will save you money and help you plan your trip. i got the book for about \$5.00 but I would have payed up to \$20. These books are usually available at the local library as well, I just wanted to write in mine and take it with me on the trip.

the following review helpful. Great!By A. BadusThis was perfect for our Spring Break trip to New Mexico. The maps were accurate, the descriptions were great - very useful!1 of 1 people found the following review helpful. Good Background.By Courtney LI was kinda surprised at the lack of books about New Mexico, so I bought used version of this for our November 2013 trip. I found this book good and useful and we didn't have any problems with things being out of date. I'm a travel guide junkie and love to read the parts about the history and culture of a place so this book was good for that. However, we also travelled through Arizona and I found that I absolutely loved Lonely Planet's Southwest USA (1741794668 In the end, I think I took more advice from the Lonely Planet book, but more information from this Fodor's book. If would recommend pairing both of them for your trip.
