Fodor's : Fodor's New Orleans 2003 before purchasing it in order to gage whether or not it would be worth my

time, and all praised Fodor's New Orleans 2003:

0 of 0 people found the following review helpful. Not a bad reference, but seems to cut cornersBy John MadisonIs it just me, or are travel guides becoming smaller and smaller? I was surprised that a travel guide for a city that has so much to offer in dining, lodging, and attractions would be so brief. The information included is good, and has an excellent amount of detail. But I wonder if businesses have to pay to be included, as there were some notable establishments missing (such as Antoine's). It may just be an oversight, as there were also a few typographical and grammatical errors as well. Overall, this is an adequate guide, especially for someone that may be new to the Crescent City.BTW, don't go to New Orleans without going to Commander's Palace in the Garden District. It is the greatest restaurant in the city, and well worth the price of admission.

No matter what your budget or whether it's your first trip or fifteenth, Fodor's Gold Guides get you where you want to go.
