**Fodor's : Fodor's Shanghai 2nd (second) edition Text Only** before purchasing it in order to gage whether or not it would be worth my time, and all praised Fodor's Shanghai 2nd (second) edition Text Only:

3 of 3 people found the following review helpful. ShanghaiBy K. EnglishAn up to date travel guide. Good maps, good day trips in Shanghai, good web sites mentioned.Some history included. I have found very useful information for our third trip to China.I did not need the hotel information.5 of 6 people found the following review helpful. Buyer BewareBy Brian BeardenI am a frequent traveler and have used many travel guides from many companies. I can say unequivocally this is the worst travel guide I have ever used.The biggest problem is that the maps are horrible. It is hard to find the correct map and they often do not have the main attractions marked. They only mention about 10-20 locations in each neighborhood section (locations mentioned are in bold), but these locations are generally not printed on the maps.For example, in the section on the "Former French Concession" neighborhood, the guide suggests three top attractions. Two of them are not marked on the map, and nowhere in the narrative does it describe their location (Taikang Lu and Ruijin Park). I spent a whole afternoon wandering the area and never found them.There are other major shortcomings as well. For example, the subway information does not mention the subway hours and there is no usable subway map. There is a subway map inside the back cover, but it is unusable because it is printed too small. The other maps apparently only recognize the existence of subway lines 1 and 2.This is the first edition, so perhaps they will fix some of these shortcomings in later editions, but for now I would recommend against this guide.0 of 0 people found the following review helpful. Good Restaurant ReviewsBy World WandererThis is a pretty good resource for Shanghai. Shanghai is hard to describe in a book as is most of China. The moreso as there is little visible

history in Shanghai compared to a city like Beijing. I found the restaurant recommendations in the French Concession to be great.
