Galen Rules!By Bookstore WillieFolks tend to compare Galen with Ansel Adams which is ridiculous because Galen is Heads Shoulders the better photographer. That said, this is not one of his better books image wise, although still well worth owning and studying.0 of 0 people found the following review helpful. World-renowned photographer Galen Rowell captures the ethereal beauty of San Franciscos most notable feature, fog, in 80 stunning full-color photographs. These arresting images showcase the unexpected convergence of light, shadow, and form manifested in moody cityscapes. Quotations from some of Americas most beloved writers such as Allen Ginsberg, Denise Levertov, Dashiell Hammett, W. S. Merwin, and John Steinbeck accompany the photos in this evocative portrait of the city by the bay.
