"Map of Houston" that doesn't cover all of HoustonBy CustomerBuyer beware: the makers of this map chose not to center it around downtown, but instead around 290/610 junction. The eastern part of the map really only extends to around 610 East, which is incongruent with another reviewer who stated that he got details of Galveston. IAH (Bush Intercontinental) is on the top right corner of the map. Not sure what is happening here. Very disappointing. Consider putting a small thumbnail of the actual map in your website.0 of 0 people found the following review helpful. ... for a map to post on the wall for easy reference since we just moved to houstonBy EuniceWe were looking for a map to post on the wall for easy reference since we just moved to houston. The text is too small and it wasn't easy to find areas or streets. We returned it but haven't found a replacement.
