Having Survived a Shipwreck Myself in the Bermuda Triangle (Feb. 25, 1972) I was Eager to Read This...By Andy Anderson aka Travis C.Length: 102 pages (print - Kindle), 2 hours 26 minutes (audio).I've read several of this writer's nonfiction and enjoyed them all. Fiction, though, is far more challenging than nonfiction.The mistakes he makes in this otherwise enjoyable story is to, too often, tell the reader what is seen, it is far more enjoyable to have the characters discuss the points so we readers can see the points. Aside from this, the writing is fairly good.Listening to the Whispernet (audible.com audio version) was not as enjoyable as the story should have been. It almost seemed as if the narrator was having trouble reading the script, which should never be the case with an audiobook.Having said that, the narrator will improve with practice.1 of 1 people found the following review helpful. Adventure on the high seasBy TFLReaderI absolutely love cruising and have always been fascinated with the intricacies of cruise ships. This is only one of the elements that attracted me to author Ken Rossignol's "Marsha Danny Jones" series. The "Follow Triangle: Vanish" book is the story of another voyage on the Sea Empress as it makes its way to the Caribbean. There are several intertwined mysteries here - the protection of a selected Supreme Court Justice is central as is the Bermuda Triangle phenomena. One of my favorite aspects of this story are the details about the ship and its journey as it made me feel as if I were on board with the characters. Looking forward to reading more in this series.1 of 1 people found the following review helpful. A Fun ReadBy Vicki GoodwinThe story was interesting with the mysteries of the Bermuda Triangle being discussed on board the cruise ship during a cruise through the area of the Bermuda Triangle. Marsha and Danny Jones are fun characters. They are the security team for the Sea Empress. I will pick up the next book and see where it takes us in the search for the missing couple. It was a fun read.

Join Marsha Danny Jones as they continue to secure the safety of the Sea Empress, now on its way to the Caribbean. Sen. Lyndon Langdon, the choice of the President to fill a coming vacancy on the Supreme Court is onboard. An expert is on the ship to discuss the history of the Bermuda Triangle. The Sea Empress arrives at St. Thomas to a remarkable discovery.

Since I read this a while ago, I can just say that I enjoyed it. Entertaining, unrealistic, but fun. Reminded me of the old Hart to Hart TV series. - Paul E. KrauseI bought the audio book version because it was only 2+ hours long and that is the length of my drive. I am glade I did because the narrator gave me a fantasize vacation from my driving. The story is about a vacation trip on one of the large cruise ships where a passenger has a vision of a lot of the stories of the "Bermuda Triangle" , currently happening around his cruise ship. The story is entertaining, the writing is very much like a newspaper article and the narrator gives it a story teller quality. .I would recommend it for your next auto trip!GBFrom the Inside FlapRossignol reaps plenty of material for his cruise thrillers by prowling the seven seas as a speaker on ships. From maritime history to true crime, which he has covered as a reporter for twenty-five years, the appeal of writing about pirates blends both interests together very well. With a keen interest in history, many of his books provide an insight to the twentieth century from the newspaper stories of one hundred years ago.About the AuthorKen Rossignol has been publishing newspapers and writing books for twenty-five years and as a maritime history speaker, Rossignol enjoys meeting audiences around the world and discussing the original news stories of the sinking of the RMS Titanic and other maritime history topics.
