Looking Forward to Our Next Visit and Now I have the Best of InformationBy Lee AnnSo often guide books are just about the same ole thing, or something silly like saying this is where Brad Pitt eats, etc I don't care for where or what celebrities do, this guidebook if for true foodies, like myself, and by genre so that you may set up a workable week, of enjoying our new or old favorites.0 of 0 people found the following review helpful. Excellent NOLA food bookBy Cara DemuWhat I loved most about this book is that it is not only broken by types of cuisine, like most books of this genre, but that it is also broken down by neighborhood. We like to wander around New Orleans with no particular plan in mind. I'd take this book along and when we felt like it

was time to savor something delightful, we would look up the neighborhood we were in and make a quick choice. Also, the reviews are very up to date and right on the money. If you go to NOLA to eat, like we do, you will appreciate this book.0 of 0 people found the following review helpful. Been to New Orleans several times, but first time for my son who is graduating from culinary school, so this will help us decide on some places to eat.
