## New York: Tracing The Lives Of Four Centuries Of New Yorkers:

New York City experts James and Michelle Nevius explore the lives of two dozen iconic New Yorkers, including Founding Father Alexander Hamilton, Central Park architects Frederick Law Olmsted and Calvert Vaux, business titan JP Morgan, and music legend Bob Dylan. Beginning with the oldest building in NYC, a 1652 farmhouse in Brooklyn, and journeying all the way to the rebuilding of the World Trade Center, the book follows in the footsteps of notable New Yorkers across all five boroughs. How did the city help Abraham Lincoln win the presidency? Where in Manhattan did Edgar Allan Poe compose *The Raven*? How was an area like Soho experienced by Mary Todd Lincoln, or Jane Jacobs, or Woody Allen? One part history and one part personal narrative, *Footprints in New York* traces the city's story from the Dutch village below Wall Street to the Mean Streets of Martin Scorsese, creating a different way of looking at the past.
