Power Alright if I buy a book I don't want there to be ads in it! This book looks like it has valuable information, but if I buy a book (for close to 20 dollars) I figure I am already paying for the information. Glad I looked at it at the library before I bought it. 2 of 3 people found the following review helpful. AWESOME!!! By James Flaherty If your home waters are in Oregon/Washington or if you are planning a future trip to the Pacific Northwest, this book is a must-read. I enjoyed the author's style of writing and am impressed with his knowledge of freshwater species. Enjoy!

This book features detailed sections on skills, techniques, and equipment, delicious recipes, photography and teaching

the younger generation to love the outdoors.
