Mark Hiss, Garth Mueller : Frommer's California Day by Day (Frommer's Day by Day - Full Size) before purchasing it in order to gage whether or not it would be worth my time, and all praised Frommer's California Day by Day (Frommer's Day by Day - Full Size):

By Kristin Belko
Skip this book or at least know that it contains about 1/3 of the material the size would suggest. I bought the book because I thought the format (see a place in 1 day, 3 days, 5 days etc.) would provide a lot of options. However, the top attractions are listed for the 1 day visit, and then repeated verbatim again in the 3 day and 5 day formats instead of merely referring to earlier printed material. Ridiculous waste of space (in a heavy book when space is limited). Too much was omitted because of the repetition. Also, some bad advice: Salinas is not, as stated, a small agricultural town but a not very appealing urban mass just like the rest of the area.

I never leave home without some tour guide book or another. Heading to California for 17 days next March, I came across this book, and bought it based on the positive reviews here. Wow! Just the type of guide I love! Suggested itineraries, travel times and distances between cities, how much time to spend where, tons of web links, phone numbers, restaurants and hotels etc. Of course, we'll be making several changes to their recommended itineraries, but they sure set us up on the right path! France, Spain and Italy are coming up in the next few years, and will definitely be looking forward to Frommer's "Day by Day" books. Highly recommended.

We have just moved to California and we use this practically every month to plan our weekends away. We have two young kids and are planning to see as much of the area as we can while we are here. This book has excellent summaries of all the key things to do and condenses them into often 1, 2 or 3 day trips to a particular area. We can never fit all that they have listed in, but the fact that the book prioritizes the best things to do is very helpful. The maps also make it easy for you to plan your own itinerary. Great to plan your days out.
