love this book and used it to plan a longer RV road trip around California. Most of the tours (maybe all) are round trip tours for 1-3 days so excellent for weekend getaways. The pictures are just a bit dated but give a good flavor and the directions are clear. There is even the San Francisco 49 mile drive listed in here - this is extra valuable - using just the the road signs/directions in San Fran by themselves is nearly impossible!.I was also very impressed by the seller - quick turn around and book in good condition0 of 0 people found the following review helpful. Good ValueBy FoggyThis little book is crammed with useful details. (We left our first copy at a hotel and it got pinched, a testament to its high quality I think.)8 of 8 people found the following review helpful. Good insightsBy A.
