A brilliant wit once said that, "to most Americans, even though they have never been there, San Francisco is their favorite town". The existence of that belief is the strongest proof of the glorious vacation experience that awaits the visitor to that "city by the Bay", that "Paris of the West", a "diverse, beautiful and cosmopolitan city" that excites millions of visitors each year. It is truly "the favorite town" of America, and no agrees more than our author. Here is her thoroughly revised 256-page tribute to a massively popular destination.
