The authors seem to dislike everything about Walt Disney World. There are MUCH better travel guides. If you are visiting Walt Disney World then be advised that as a former Disney cast member and a fan of the mouse, I do not recommend this tome..0 of 1 people found the following review helpful. Going to Disney without buying into itBy A CustomerThis book is for those traveling to Disney World who aren't exactly comfortable with the hype and the world-homogenization that Disney exudes. Well-organized with interesting and sometimes off-beat budget-savvy suggestions. The ace-the-park info isn't much different than any other book.

Take a look behind the hype, and get the inside scoop on what's really worth seeing at Disney World, and what's not.
