would be worth my time, and all praised Frommer's New Orleans day by day:

By Joseph L. Steffen
I really liked the neighborhood walks in this pocket-sized guidebook, despite the number of map errors. Most maps had at least one numbered dot that was in the wrong location on the street, so I spent significant time backtracking looking for specific addresses. Despite this, the walks got me into beautiful neighborhoods that I hadn't explored before because I knew that New Orleans had high crime neighborhoods but didn't know where they were, and so had been afraid to explore on my own.

Pleased with the book and arrived day before our departure. It did have several notes written by the previous owner on many pages, but for the price, it wasn't a bother.

Wasn't a good guide for the city. Often not even giving the address.
