**J G Pangborn : Picturesque on the B. O (Classic Reprint)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Picturesque on the B. O (Classic Reprint):

1 of 1 people found the following review helpful. A poor reproduction of a really interesting resourceBy RichardThis is a really poor reproduction of what is actually a really interesting resource. I was shocked that the Library of Congress would put their name this. The images are not centered on the pages, they are made up of both greyscale and black and white scans and much of the pencil art is faded and hard to see. There is a color scan of the book on archives.org that demonstrates how much of the content is really ruined by the choices the Library of Congress made

in producing this edition. I would never recommend it to anyone else.
