It may be well done for what it is, but it's too small (59 pp.), so it does not contain enough place names or enough description. You are far better off getting "Arizona Place Names Paperback February 1, 1988, by Will Croft Barnes (Author), Bernard L. Fontana (Foreword)."Furthermore, the cover does not look anything like this photo -- it's an ugly yellow with brown printing. This cheap booklet almost looks like a home printing job. Save your money for the above-named book by Barnes. It's the authority.2 of 2 people found the following review helpful. Place namesBy GuyvZInteresting reading where some of the names come from. There are some I could not find, but most are. I believe this is the most complete one available.
