Arnot : Point Reyes - Secret Places and Magic Moments (Tetra) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Point Reyes - Secret Places and Magic Moments (Tetra):

1 of 1 people found the following review helpful. A must-have book for Pt Reyes fans By Paul from Santa Rosa I've been hiking at Pt Reyes since the late 60's, but I didn't know about most of the secret places mentioned in this book. Arnot tells you what and where they are, and includes warnings about the difficulty and conditions required. You can simply hike to some of the secret places, once you know where they are. The minus tide hikes are different. They require careful planning and reading a book does not prepare you for the actual experience. Just today I read a news article about a couple from Novato being rescued by helicopter near McClures Beach. They got trapped by the tide and were clinging to a cliff, something that happens all the time. If you read this book CAREFULLY, pay attention to the warnings, AND use common sense that won't happen to you. I bought this book 3 or 4 yrs ago, and have now made several trips to all the "secret places". They are indeed special. I'm indebted to Phil Arnot for sharing them. 0 of 0 people found the following review helpful. I purchased this in search of directions to secret cave ... By Bruce Cohn I purchased this in search of directions to secret cave with this book alluded to prior to my buying it. I couldn't find any reference to it was I bought the book and read it. And it is a book that came from a public library 0 of 0 people found the following review helpful. Five Stars By Mark G.A++++
