this book. So far it has been a joy to read. I have some idea of the authenticity by reading about bridal veil falls, and that seems to be correct. I hope I am able to align my thinking to be able to use this book effectively. 0 of 0 people found the following review helpful. Five Stars By geohig Perfect - thank you! 16 of 17 people found the following review helpful. Hit and Miss By T. Schoenborn I've enjoyed this book, and we've used it several times. The selection of hikes is good. My only legitimate (in my mind) quibble with the book is directions to the trailheads are often cryptic. Not exactly wrong, but kind of difficult to follow. The author doesn't always put in distances to certain landmarks, and for folks new to the area or new to hiking, that can be difficult. This lack of detail can be especially exasperating in the wilderness areas around Portland, for which traditional road maps don't supply the enough info.

Book by Bernstein, Art, Jackman, Andrew
