It's similar to a Thomas Guide, but slimmer. As I recall, it was easy to read and use. It did help me make my way around Portland when I visited for a few days. Not much else to say about it. It does the job. 0 of 0 people found the following review helpful. Great book, dying for the next edition By Vintage PowerReader I have used two , three of these great books. So much easier to use than Thomas. My family

steals mine from my car. Need a new one, mine is shredded.
