As a native Portlandian, I will argue that there are a few more places that should be on this list like the Chinese and Japanese Gardens; however (and I hate to admit this), but there are a few on this list that I have yet to go to... and I've only been living here for 26 years!0 of 0 people found the following review helpful. He lists very few places less than 10 and they are all the normal places that you would find on line. Not worth the download. That pictures makes it look like book!

Besides "chillin' the freak out" Bryan loves self-expression through various mediums.
