It's a book for Christians who will be traveling to China. The premise is that while there, why not pray for the spiritual needs of the country while going

about your other business? The book advises the reader on stragic issues that Christians can pray for while they travel, do business, or visit Beijing's historic sites. The book contains helpful maps of popular tourist spots, is well organized, easy to read, and it even contains cultural warnings about what to do, or not do, so as to not offend one's Chinese hosts. This book is small in size, easy to carry around in one's coat pocket, and will be a very nice traveling companion while in China. I've learned the author has plans to release other books in this series. So, if you happen to be traveling to other major cities of the world and want a very practical prayerwalk guide check back...your favorite travel destination may have a "Prayerwalk" guide book in the near future.0 of 0 people found the following review helpful. A Delight to ReadBy Tammy MMy sister spent a semester studying in China, so I was interested in buying the book for her. I started reading it myself, having absolutely no background or knowledge of China or Chinese culture at all. I guess I was expecting a book of just some instructions on where to walk, and maybe some prayer points, but despite its slim size this book is so much more! Filled with easy to read maps, insider tips, taboos, history, and more this book was a genuine delight to read. It has enough descriptions to adequately educate a novice like me, and yet doesn't become too intense that it resembles a textbook. I really liked the different options for prayer walking, as you can choose to actually walk the routes, take a taxi or bus, or even the subway, and the subway stops and cross streets are given to reduce the amount of confusion that you generally have navigating in a strange city. This book so intrigued me that now I want to visit Beijing myself just to go on these prayer walks and experience the culture first hand for myself. Thanks to this book I will know what to expect, have a good idea what to visit and not commit any major cultural faux pas.0 of 0 people found the following review helpful. Great book!By Chris MoyerIf you are a Christian and you are planning a trip to Beijing, I highly recommend "Prayer Walk Beijing." The book is well written and easy to understand. It hits the most popular tourist destinations in Beijing and adds a spiritual focus to your trip! I've lived in China for more than 3 years and I've visited Beijing several times. The book provides clear directions for exploring Tiananmen Square, The Forbidden City, The Summer Palace, Beihai Park and The Great Wall.Nathalie Jeter does a great job of voicing the spiritual needs of the Chinese people and she provides prayers that you can silently pray while you are exploring the sites. She also explains basic Chinese culture and etiquette. Buy "Prayer Walk Beijing" and bring it on your trip so you can make an eternal difference in the lives of Chinese people!
