Photographer Charles Fields captures the popular vacation destinations of Provincetown, Truro, and Wellfleet throughout all four seasons. The landscapes, seascapes, and aerial views are brilliantly featured in this colorful and stunning collection, while each new image illustrates the timeless appeal that attracts visitors to the area. The descriptive and extensive captions help to showcase the nuances of each season depicted in addition to fleshing out an area known for its history, artists, and writers. Some popular sites featured include Cape Cod National Seashore, Pilgrim Monument and Museum, and the Provincetown Art Association and Museum. This is a great collection for those planning on visiting the area as well as for those looking to relive and sustain the pleasure of their trip there.

"Photographer Charles Fields work is familiar to Cape Cod residents: for years he has caught the light and images of the world in general and the Outer Cape in particular and shared them via books and calendars. Kathy Shorr's text underscores and narrates the photographs, lending a National-Geographic-like feel to the collections." Jeannette de Beauvoir, author, *Seven Times to Leave*
