**Rand McNally : Rand McNally Boston Street Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised Rand McNally Boston Street Guide:

Haven't used the Boston one much yet because I now have an auto with GPS.Time will tell.1 of 1 people found the following review helpful. Life-saverBy K. GrimesThis thing is indispensable if you do any driving in and around Boston. Full, detailed maps all around the 95 loop and out on the pike to 495. Many of the 'City of Boston' maps don't go far enough south, west, or north to help you when you're driving into North Cambridge, Brookline, Newton and JP. And even if you manage to get to your destination with the aid of Google, Mapquest, or sheer force of will, unfortunately, in Boston, that is no guarantee that "going back the way you came" will be in any way possible. This thing is big, and spiral bound, but if you tab the pages you'll need, it's a life saver when you make a wrong turn.
