3 of 3 people found the following review helpful. handy map, unique ideaBy Audrey FrancesThis fabric map does double duty as a lens cleaning cloth and as a two-sided map of Philadelphia. One side shows downtown Philly, from Bainbridge Street north to the southern tip of Fairmount Park, and from the Schuylkill River east to 2nd Street; the opposite side, scaled at about 250 yards to the inch, shows a detailed rendering of the Rittenhouse Square area, augmented with symbols for museums, mass transit routes, (unidentified) restaurants and hotels, etc. The map is 11" by 8" and the cloth is soft enough to clean your glasses or camera lens. It's wrinkle-proof and washable, easy to stuff into a pocket or purse and refer to without looking like a dweeb. Quite handy and clever to boot. These maps are available for a number of US cities -- love to see more of them!

It doesn't have anywhere near the scope and detail one would need to navigate the city - it only shows you sections of the tourist areas. Any hotel or city information booth can give you a better one for free. Waste of money.
