Do not try to use any map to navigate Dallas/Fort worth. They have much better highways than the Least Coast but there are so many you better have navigation in your car.3 of 3 people found the following review helpful. Exactly what I neededBy Mary JWhat can you say about a map? I just needed one and this worked so there you have it a description that was required to submit a review.0 of 0 people found the following review helpful. Broader ViewBy NewmsEven with the success of GPS devices, it is still helpful for me to get a broader view of an area I am travelling around with a map. Also, in case you haven't experienced it, GPS devices are not always accurate.
