UsefulBy ElleyI tend to get horribly lost when I go to Pittsburgh. But this past weekend, instead of driving around for 2 hours while trying to call someone who can help me, I just pulled out my map and found where I was and where I was going, and I was fine. Very helpful.2 of 2 people found the following review

helpful. A little old fashioned perhaps but very useful!By CustomerApparently with the dawn of GPS systems Rand McNally figures there is less of a demand for good street guides as there was no current print edition available. But with that said even the older print edition acquired from a third party still works. GPSes don't show neighborhoods and other useful information if one is being asked to relocate.
