**From Rand McNally Company : Rand McNally Streets of New Orleans/Hammond/Ponchatoula/Slidell, Louisiana** before purchasing it in order to gage whether or not it would be worth my time, and all praised Rand McNally Streets of New Orleans/Hammond/Ponchatoula/Slidell, Louisiana:

4 of 4 people found the following review helpful. Not Quite Good, SmallBy Andrey KirillovThis is a fine map except for a few drawbacks. Firstly, it is small meaning that in some areas things are really crowded. Some of these areas are normally featured in inserts, like the French Quarter, but not in this map. Sadly the Quarter is only part of the overall map. Secondly, it is bizarre that some parts/neighbourhoods are named while others are not. You will find Bywater but not Marigny, Mid-City but neither Carrollton, Uptown, Garden District, CBD or even the French Quarter, which is unbelievable. You'll see Tulane University but not Loyola, Touro Infirmary but not Touro Hospital. You'll see St. Louis cemeteries but their numbers are omitted. So, this map is highly underdesigned in terms of its legend. This is yet another example that ten years ago maps were better, included more areas for the same price (or less), had more inserts with details and were generally thicker. Despite the fact that everybody runs with a GPS unit, maps should be good too. 0 of 0 people found the following review helpful. A really good comprehensive mapBy TRDA really good comprehensive map. Although everything is going online and digital (not my preference -- there's something to be said about having an actual map!), I wish Rand McNally made maps for every area of the country.
